(2) Each Contracting Party reserves the right, however, not to recognize as valid, for the purpose of flights over its own territory, certificates of competency and licences granted to its nationals or rendered valid for them by the other Contracting Party or by any other state.

(3) If the certificates or licences referred to in paragraph 1 and 2 of this article were issued or rendered valid according to requirements different from the standards established under the Convention, and if such difference has been filed with the International Civil Aviation Organisation, the aeronautical authorities of the other Contracting Party may request consultations in accordance with Article 19 of this Agreement with a view to satisfying themselves that the requirements in question are acceptable to them.

ARTICLE 10

Aviation Security

(1) The assurance of safety for civil aircraft, their passengers and crew being a fundamental pre-condition for the operation of international air services, the Contracting Parties reaffirm that their obligations to each other to provide for the security of civil aviation against acts of unlawful interference (and in particular their obligations under the Chicago Convention, the Convention on Offences and Certain Other Acts Committed on Board Aircraft, signed at Tokyo on 14 September 1963, the Convention for the Suppression of Unlawful Seizure of Aircraft, signed at The Hague on 16 December 1970, the Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation, signed at Montreal on 23 September 1971, the

Protocol for the Suppression of Unlawful Acts Against the Safety of International Airports and any other multilateral agreement governing civil aviation security binding up the Contracting Parties) form an integral part of this Agreement.

- (2) The Contracting Parties shall provide upon request all necessary assistance to each other to prevent acts of unlawful seizure of civil aircraft and other unlawful acts against the safety of such aircraft, their passengers and crew, airports and air navigation facilities, and any other threat to the security of civil aviation.
- (3) The Contracting Parties shall, in their mutual relations, act in conformity with the aviation security Standards and, so far as they are applied by them, the Recommended Practices established by the International Civil Aviation Organisation and designated as Annexes to the Chicago Convention; and shall require that operators of aircraft of their registry, operators who have their principal place of business or permanent residence in their territory, or, in the case of the Kingdom of Belgium, operators of aircraft which are established in its territory under the EU treaties and have valid Operating Licences in accordance with the European Union Law and the operators of airports in their territory, act in conformity with such aviation security provisions. In this paragraph the reference to aviation security Standards includes any difference notified by the Contracting Party concerned.
- (4) Each Contracting Party shall ensure that effective measures are taken within its territory to protect aircraft, to screen passengers and their carry-on items, and to carry out appropriate checks on crew, cargo (including hold baggage) and aircraft stores prior to and during boarding or loading and that those measures are adjusted to meet increases in the threat. Each Contracting Party agrees that its airlines may be required to observe the aviation security provisions referred to in paragraph (3) required by the other Contracting Party, for entrance into, departure from, or while within, the territory of that other Contracting Party. Each Contracting Party shall also act favourably upon any request from the other Contracting Party for reasonable special security measures to meet a particular threat.
- (5) When an incident or threat of an incident of unlawful seizure of civil aircraft or other unlawful acts against the safety of such aircraft, their passengers and crew, airports or air navigation facilities occurs, the Contracting Parties shall assist each other by facilitating communications and other appropriate measures intended to terminate as rapidly as possible commensurate with minimum risk to life such

incident or threat.

(6) Should a Contracting Party depart from the aviation security provisions of this article, the aeronautical authorities of the other Contracting Party may request immediate consultations with the aeronautical authorities of that Party. Failure to reach a satisfactory agreement within thirty (30) days will constitute grounds for application of Article 4 of this Agreement.

ARTICLE 11

Aviation Safety

(1) Each Contracting Party may request consultations at any time concerning the safety standards maintained by the other Contracting Party in areas relating to aeronautical facilities, aircrews, aircraft and their operation. Such consultations shall take place within 30 (thirty) days of that request.

(2) If following such consultations, one Contracting Party finds that the other Contracting Party does not effectively maintain and administer safety standards in any such area that are at least to the minimum standards established at that time pursuant to the Chicago Convention, the first Contracting Party shall notify the other Contracting Party of those findings and the steps considered necessary to conform with those minimum standards and the other Contracting Party shall take appropriate corrective action. Failure by the other Contracting Party to take appropriate action within a reasonable time, and in any case within 15 (fifteen) days or such longer period as may be agreed, shall be grounds for the application of Article 4 of this Agreement.

(3) Notwithstanding the obligations mentioned in Article 33 of the Chicago Convention, it is agreed that any aircraft operated by the airline or airlines of one Contracting Party on services to or from the territory of another Contracting Party may, while within the territory of the other Contracting Party, be made the subject of an examination by the authorities representative of the other Contracting Party on board and around the aircraft to check both the validity of the aircraft documents and those of the crew and the apparent condition of the aircraft and its equipment (in this Article called "ramp inspection"), provided this does not lead to unreasonable delay.

(4) If any such ramp inspection or series of ramp inspections give rise to:

- a) serious concerns that an aircraft or the operation of an aircraft does not comply with the minimum standards established at that time pursuant to the Chicago Convention, or,
- b) serious concerns that there is a lack of effective maintenance and administration of safety standards established at that time pursuant to the Chicago Convention, the Contracting Party carrying out the inspection shall, for the purpose of Article 33 of the Chicago Convention, be free to conclude that the requirements under which certificates or licences in respect of that aircraft or in respect of the operator or crew of that aircraft had been issued or rendered valid are not equal to or above the minimum standards established at that time pursuant to the Chicago Convention.

(5) In the event that access for the purpose of undertaking a ramp inspection of an aircraft operated by the airline or airlines of one Contracting Party in accordance with paragraph 3 above is denied, the other Contracting Party shall be free to infer that serious concerns of the type referred to in paragraph 4 above arise and draw the conclusions referred to in that paragraph.

(6) Each Contracting Party reserves the right to suspend or vary the operating authorization of an airline or airlines of the other Contracting Party immediately in the event the first Contracting Party concludes, whether as a result of a ramp inspection, a series of ramp inspections, a denial of access for ramp inspection, consultation or other form of dialogue, that immediate action is essential to the safety of an airline or airlines operation.

(7) Any action by one Contracting Party in accordance with paragraph 1 or 2 above shall be discontinued once the basis for the taking of that action ceases

(8) Where Belgium has designated an air carrier whose regulatory control is exercised and maintained by another EU Member State, the rights of the Republic of Maldives under the safety provisions of the agreement between Belgium and the Republic of Maldives shall apply equally in respect of the adoption, exercise or maintenance of safety standards by that other EU Member State and in respect of the operating authorisation of that air carrier.

ARTICLE 12

Timetable

- (1) The designated airline of each Contracting Party shall submit to the aeronautical authorities of the other Contracting Party for approval, 30 (thirty) days in advance, the timetable of its intended services, specifying the frequency, type of aircraft, configuration and number of seats to be made available to the public.
- (2) Any subsequent changes to the approved timetables of a designated airline shall be submitted for approval to the aeronautical authorities of the other Contracting Party.
- (3) If a designated airline wishes to operate flights supplementary to those covered in the approved timetables, it shall obtain the prior permission of the aeronautical authorities of the Contracting Party concerned.

ARTICLE 13

Provision of Statistics

The designated airline(s) of a Contracting Party shall supply to the aeronautical authorities of the other Contracting Party at their request statistics as may be reasonably required for the purpose of reviewing the capacity provided on the agreed services by the designated airlines of the Contracting Party referred to first in this Article. Such statements shall include all information required to determine the amount of traffic carried by those airlines on the agreed services and the origins and destinations of such traffic.

ARTICLE 14

Revenue and transfer of Earnings

- (1) Each Contracting Party grants to the designated airlines of the other Contracting Party the right of free transfer of the excess of receipts over expenditures earned by the designated airline in its territory. Such transfers shall be effected on the basis of the official exchange rates for current payments, or where there are no official exchange rates, at the prevailing foreign exchange market rates for current payments, applicable

on the day of the introduction of the request for transfer by the airlines designated by the other Contracting Party and shall not be subject to any charges except normal service charges collected by banks for such transactions.

(2) Each Contracting Party shall, on the basis of reciprocity, exempt the designated airlines of the other Contracting Party from any form of taxation on income or profits derived by those airlines in the territory of the first Contracting Party from the operation of international air services, as well as from any tax on turnover or capital.

This provision shall not apply if a Convention for the avoidance of double taxation providing for a similar exemption is in force between the Contracting Parties.

ARTICLE 15

Airline Representation and Sales

(1) The designated airline or airlines of one Contracting Party shall be entitled, in accordance with the laws and regulations relating to entry, residence and employment of the other Contracting Party, to bring in and maintain in the territory of the other Contracting Party those of their own managerial, technical, operational and other specialist staff who are required for the provision of air services.

(2) These staff requirements may, at the option of the designated airlines, be satisfied by their own personnel of any nationality or by using the services of any other organisation, company or airline operating in the territory of the other Contracting Party and authorised to perform such services in the territory of that Contracting Party.

(3) The representatives and staff shall be subject to the laws and regulations in force of the other Contracting Party. Consistent with such law and regulations, each Contracting Party shall, on the basis of reciprocity and with the minimum of delay, grant the necessary work permits, employment visas or other similar documents to the representatives and staff referred to in paragraph 1 of this article.

(4) To the extent permitted under national law, both Contracting Parties shall dispense with the requirement of work permits or employment visas or other similar documents for personnel performing certain temporary services and duties.

(5) The designated airlines of each Contracting Party shall have the right to engage in the sale of air transportation in the area of the other Contracting Party

directly and, at the airline's discretion, through agent or agents appointed by the designated airline. The designated airlines of each Contracting Party shall have the right to sell, and any person shall be free to purchase, such transportation in local currency or in any freely convertible other currency.

ARTICLE 16

User Charges

(1) Neither Contracting Party shall impose or permit to be imposed on the designated airlines of the other Contracting Party user charges higher than those imposed on its own airlines operating similar international air services.

(2) Each Contracting Party shall encourage consultation on user charges between its competent charging authorities and airlines using the services and facilities provided by those charging authorities, where practicable through those airlines' representative organisations. Reasonable notice of any proposals for changes in user charges should be given to such users to enable them to express their views before changes are made. Each Contracting Party shall further encourage its competent charging authorities and such users to exchange appropriate information concerning user charges.

ARTICLE 17

Ground handling provisions

Subject to the laws and regulations of each Contracting Party including, in the case of the Kingdom of Belgium, European Union law, each designated airline shall have in the territory of the other Contracting Party the right to perform its own ground handling ("self-handling") or, at its option, the right to select among competing suppliers that provide for ground handling services in whole or in part. The right shall be subject only to physical constraints resulting from considerations of airport safety.

Where such laws and regulations limit or preclude self-handling and where there is no effective competition between suppliers that provide ground handling services,

each designated airline shall be treated on a non-discriminatory basis as regards their access to self-handling and ground handling services provided by a supplier or suppliers.

ARTICLE 18

Change of gauge and code-share

- (1) For any segment, or segments of the respective routes a designated airline may during any one continuous flight, change type of aircraft at any point of the route.
- (2) In operating the agreed air services on the routes specified in the Annex, each designated airline may enter into code-share arrangements with an airline of any nationality provided the latter airline holds the appropriate route and traffic rights.

ARTICLE 19

Consultation

Either Contracting Party may at any time request consultations on the implementation, interpretation, application or amendment of this Agreement or compliance with this Agreement. Such consultations, which may be between aeronautical authorities, shall begin within a period of 60 (sixty) days from the date the other Contracting Party receives a written request, unless otherwise agreed by the Contracting Parties.

ARTICLE 20

Settlement of Disputes

- (1) If any dispute arises between the Contracting Parties relating to the interpretation or application of this Agreement, the Contracting Parties shall in the first place try to settle it by negotiation.
- (2) If the Contracting Parties fail to reach a settlement of the dispute by negotiation, it may be referred by them to such person or body as they may agree on

or, at the request of either Contracting Party, shall be submitted for decision to a tribunal of three arbitrators which shall be constituted in the following manner:

- (a) within 30 (thirty) days after receipt of a request for arbitration, each Contracting Party shall appoint one arbitrator. A national of a third State, who shall act as President of the tribunal, shall be appointed as the third arbitrator by agreement between the two arbitrators, within 60 (sixty) days of the appointment of the second;
 - (b) if within the time limits specified above any appointment has not been made, either Contracting Party may request the President of the Council of the International Civil Aviation Organisation to make the necessary appointment within 30 (thirty) days. If the President is of the same nationality as one of the Contracting Parties, the most senior Vice-President who is not disqualified on that ground shall make the appointment.
- (3) Except as hereinafter provided in this Article or as otherwise agreed by the Contracting Parties, the tribunal shall determine the limits of its jurisdiction and establish its own procedure. At the direction of the tribunal, or at the request of either of the Contracting Parties, a conference to determine the precise issues to be arbitrated and the specific procedures to be followed shall be held not later than 30 (thirty) days after the tribunal is fully constituted.
- (4) Except as otherwise agreed by the Contracting Parties or prescribed by the tribunal, each Contracting Party shall submit a memorandum within 45 (forty five) days after the tribunal is fully constituted. Replies shall be due 60 days later. The tribunal shall hold a hearing at the request of either Contracting Party, or at its discretion, within 30 (thirty) days after replies are due.
- (5) The tribunal shall attempt to give a written decision within 30 (thirty) days after completion of the hearing or, if no hearing is held, 30 (thirty) days after the date both replies are submitted. The decision shall be taken by a majority vote.
- (6) The Contracting Parties may submit requests for clarification of the decision within 15 (fifteen) days after it is received and such clarification shall be issued within 15 (fifteen) days of such request.
- (7) The decision of the tribunal shall be binding on the Contracting Parties.

(8) Each Contracting Party shall bear the costs of the arbitrator appointed by it. The other costs of the tribunal shall be shared equally by the Contracting Parties including any expenses incurred by the President or Vice-President of the Council of the International Civil Aviation Organisation in implementing the procedures in paragraph (2)(b) of this Article.

Amendment

- (1) Any amendments of this Agreement agreed by the Contracting Parties shall come into effect when confirmed by an Exchange of Notes.
- (2) This Agreement shall be deemed to have been amended by those provisions of any international convention or agreement which may become binding on both Contracting Parties. The provisions of such international/multilateral convention shall prevail.
- (3) The Contracting Parties agree that the Route Schedule in the Annex can be modified after agreement between the Aeronautical Authorities through an administrative arrangement.

ARTICLE 22

Registration

This Agreement and any amendment in accordance with Article 21 shall be registered with the International Civil Aviation Organization.

ARTICLE 23

Termination

Either Contracting Party may at any time give notice in writing to the other Contracting Party of its decision to terminate this Agreement. Such notice shall be simultaneously communicated to the International Civil Aviation Organisation. This

Agreement shall terminate twelve (12) months after the date of receipt of the notice by the other Contracting Party, unless the notice is withdrawn by agreement before the expiry of this period. In the absence of acknowledgement of receipt by the other Contracting Party, the notice shall be deemed to have been received 14 (fourteen) days after receipt of the notice by the International Civil Aviation Organisation.
